AUTOCAD

ABOUT US

Krutanic is at the forefront of transforming education through cutting-edge technology. Our comprehensive platform empowers learners with personalized learning experiences, collaborative tools, and real-time analytics. With adaptive assessments and interactive content creation, we enhance student engagement and achievement. Join us in revolutionizing education for the digital age, driving positive outcomes and preparing learners for success in tomorrow's world.

TRAINING AND INTERNSHIP PROGRAM

Why AutoCad ?

- Industry-standard software for 2D & 3D drafting
- Widely used in architecture, engineering, and construction
- Precise and accurate technical drawings
- Increases productivity and efficiency
- Supports detailed documentation and modifications
- Compatible with other CAD tools and formats

TRAINING AND INTERNSHIP PROGRAM

1st MONTH

LIVE SESSIONS

Live sessions with industrial experts having experience above 10 years in the industry.

RECORDINGS

Recordings of all live sessions available with 1 year access in our LMS portal.

INDUSTRY RELATED

Industry related curriculum designed by the working professionals in the top hierarchy.

TRAINING AND INTERNSHIP PROGRAM

nd
2 MONTH

REAL TIME PROJECTS

Two real time industrial projects
One minor project and One major project.

ASSISTANCE

All mentors will be assigned as project leads and guide the intern till the completion of the project.

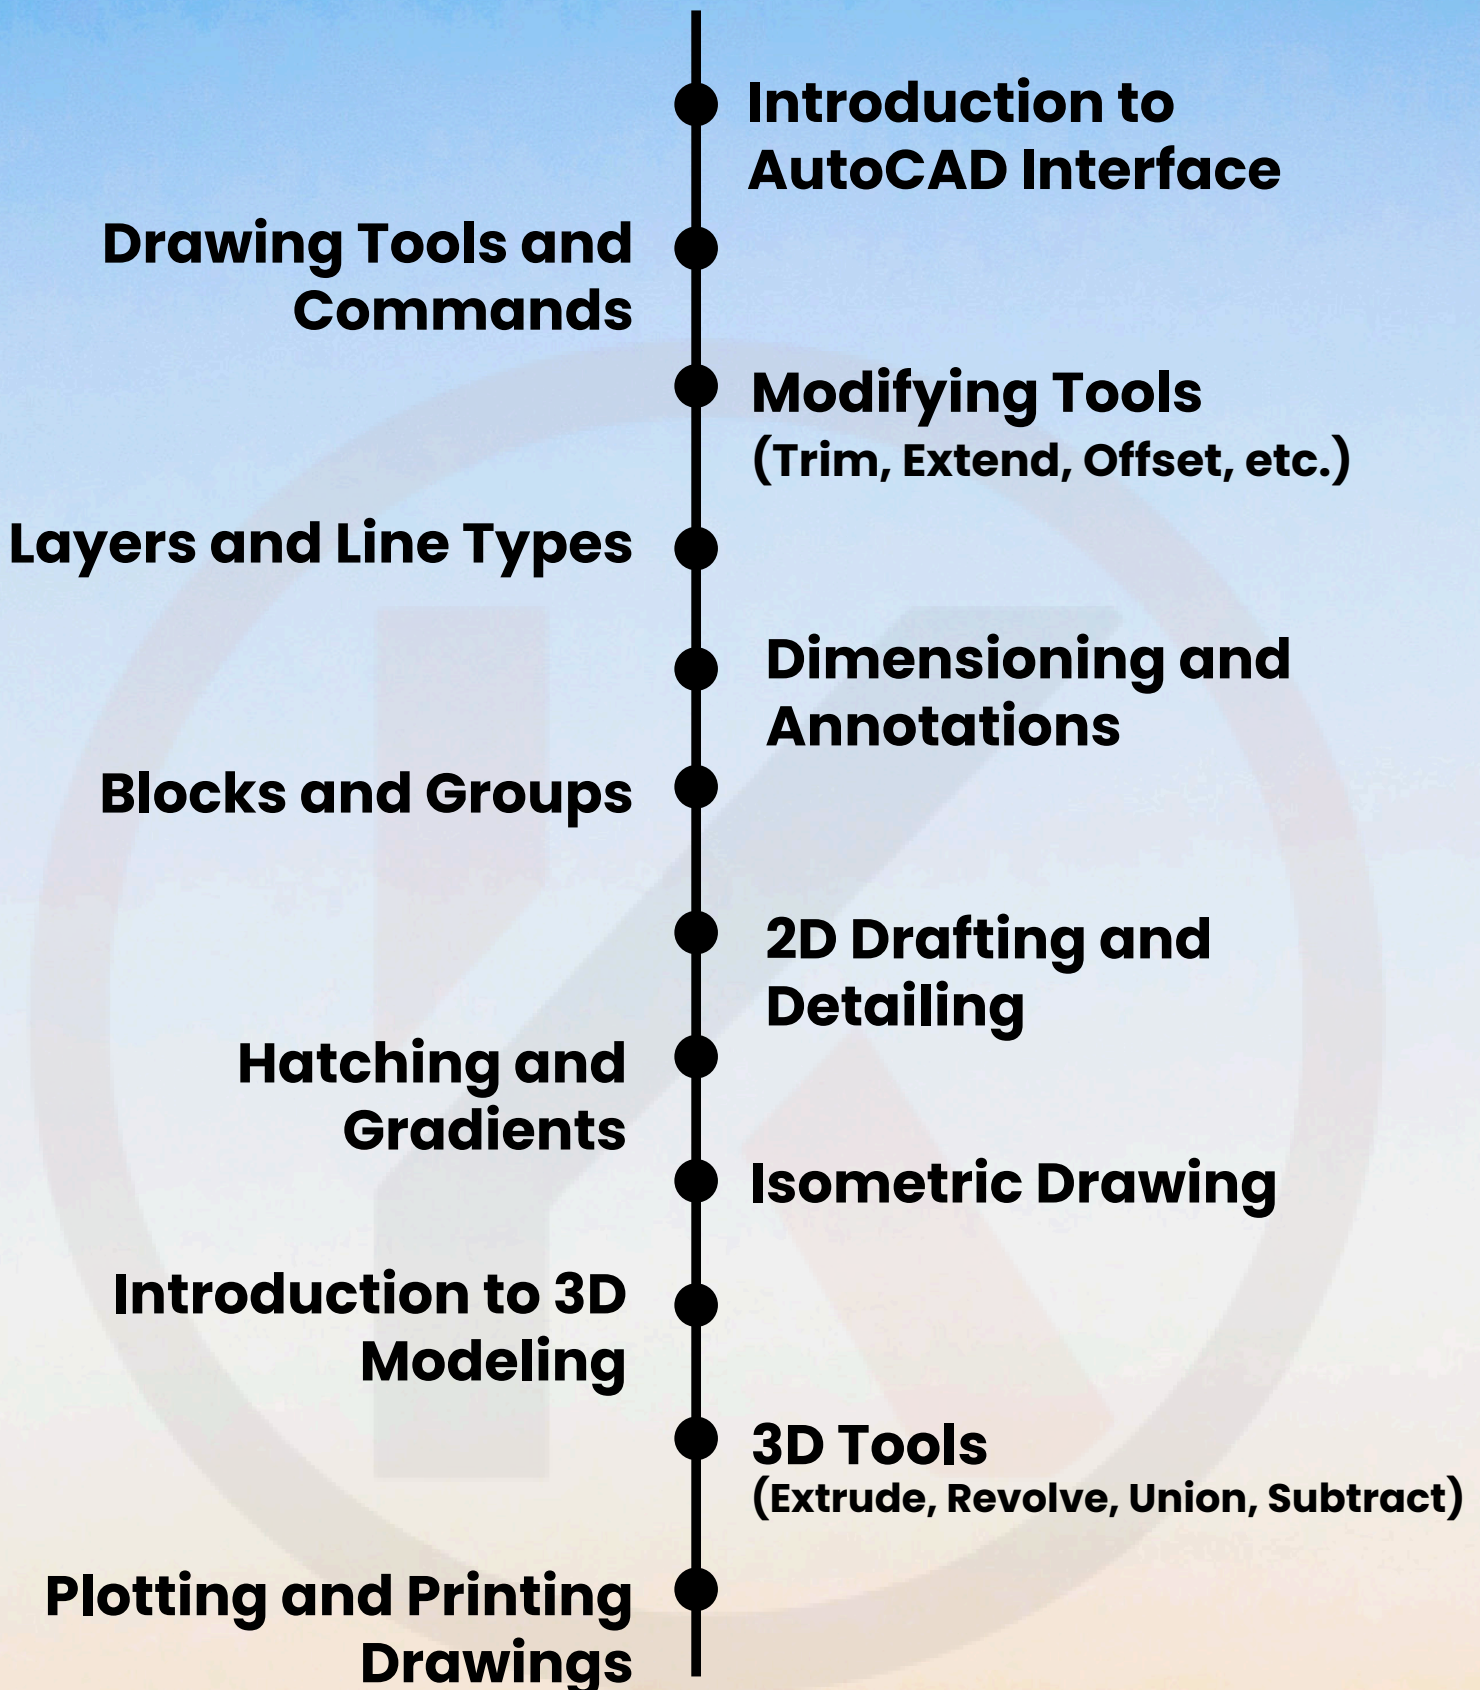

PERSONAL DEVELOPMENT

Additional projects for personal development can be required.

Modules Overview

Curriculum included

1

Introduction to AutoCAD Interface

- Understand workspace layout (ribbons, command line, toolbars)
- Learn to navigate model space and paper space
- Customize the interface for efficiency
- Open, save, and manage drawing files

2

Drawing Tools and Commands

- Use Line, Circle, Arc, Rectangle, Polygon tools
- Learn to draw precise 2D shapes
- Apply coordinates and snaps for accuracy
- Understand object properties (length, radius, etc.)

3

Modifying Tools (Trim, Extend, Offset, etc.)

- Trim and Extend lines to meet design needs
- Offset objects at a set distance
- Use Move, Copy, Rotate, and Scale tools
- Apply Mirror and Array for symmetrical designs

4

Layers and Line Types

- Create and manage layers for organized drawings
- Assign colors, line types, and line weights to layers
- Control visibility of drawing elements
- Lock, freeze, or isolate layers as needed

Curriculum included

5

Dimensioning and Annotations

- Add linear, angular, radial, and diameter dimensions
- Insert text annotations and labels
- Customize dimension styles and text styles
- Use leaders and multileaders for notes

6

Blocks and Groups

- Create blocks for reusable drawing elements
- Insert and manage block libraries
- Define dynamic blocks with adjustable properties
- Group objects temporarily for editing

7

2D Drafting and Detailing

- Draft technical drawings (plans, sections, elevations)
- Apply precise measurements and alignment
- Add detail views and notes
- Follow drawing standards and conventions

8

Hatching and Gradients

- Apply hatch patterns to areas for materials/sections
- Adjust hatch scale, angle, and boundary
- Use solid fills and gradient fills for emphasis

Curriculum included

9

Isometric Drawing

- Switch to isometric snap/grid mode
- Draw isometric circles using ellipses
- Create isometric views of 3D objects in 2D
- Use isoplane switching for different angles

10

Introduction to 3D Modeling

- Understand 3D modeling environment and views
- Learn basic 3D navigation (orbit, pan, zoom)
- Convert 2D sketches into 3D forms
- Explore visual styles and shading options

11

3D Tools (Extrude, Revolve, Union, Subtract)

- Use Extrude to convert 2D shapes to 3D solids
- Use Revolve for circular solid modeling
- Apply Boolean operations: Union, Subtract, Intersect
- Modify and refine 3D models

12

Plotting and Printing Drawings

- Set up layout sheets and viewports
- Assign scales to viewports for accurate output
- Configure page setup and plot styles
- Print to PDF or physical printer with title blocks

Tools Included

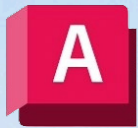

SKETCHUP

Fusion 360

Solid works

AutoCAD

AutoDesk REVIT

Students Reviews

Ramshad K

★★★★★

I have gained a really hands on Experience with on graphic design which was delivered by Akash sir was very supportive and endless worthy experience so far.

Rajendra Prasad

★★★★★

I'm Rajendran Prasad, to be honest I'm expressing my words, I have researched and found the correct certificate on LinkedIn and scan that and found it 100% genuine and verified successfully.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

I have seen some bad reviews and many good reviews so got confused but now I realised that Krutanic solutions is the best company ever for training and internship provider, I have learned a lot of new industrial things.

Sahad K

★★★★★

I got placement at Wipro through krutanic support team. I am really grateful that I got to learn from AI Mentor Ashish sir and support from my counsellor was really helpful. All thanks to Bhoomika mam my operations support member from krutanic.

Sunil Kumar

★★★★★

I'm Sunil Kumar, I have enrolled for Data Science program at Krutanic solutions and my experience is outstanding.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

Shubham Rai

★★★★★

Krutanic Group is truly doing a remarkable job by creating learning spaces that are not only informative but also inspiring. I've had the opportunity to attend two of their courses-Photography and Graphic Designing-and both were simply

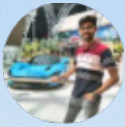

Aman Nema

★★★★★

Krutanics Full Stack Web Development program was a fantastic learning experience. The course covered essential technologies like HTML, CSS, JavaScript, React, and backend development, providing strong foundation for building real-world web applications. The hands-on projects and expert guidance from mentors made learning interactive and practical. This program is perfect for beginners and aspiring developers looking to enhance their skills in web development. Highly recommended.

Students Reviews

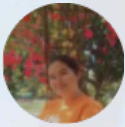

Tejas Kolekar

I am thrilled to share my enriching experience from the Artificial Intelligence and Machine Learning Internship I recently completed with Krutanic, in collaboration with Wipro, a leading multinational corporation. This 3-month program was an incredible opportunity to deepen my knowledge, enhance my skills, and grow both personally and professionally in the dynamic field of AI and ML.

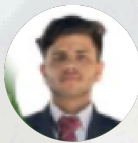

Pranali Shinde

Excited to share that I've just completed a Data Science course from Krutanic! It was an amazing journey diving into data visualization, exploratory data analysis, SQL, and machine learning. I've gained some valuable skills that I can't wait to apply in real-world projects. Big thanks to the instructors and everyone who made this experience so enriching! Looking forward to what's next!

Prabhleen Kaur

Just after few months of completion of my AI course I got my hands on attending Master class on Building AI agent without coding held in the month of March my experience was very good I get to know about new things from my mentor Mr.Aashish Mishra And at the end i recieved this ©
All thanks to Krutanic for giving me this opportunity.....

Career Opportunities in Artificial Intelligence

Draughtsman / CAD Technician Create technical drawings and blueprints for engineering or architectural projects.

Architectural Draftsman Design building plans, layouts, and elevation drawings using AutoCAD.

Mechanical CAD Designer Develop mechanical components, machine parts, and assemblies in 2D/3D.

Civil CAD Engineer Design civil structures like roads, bridges, pipelines, and drainage systems.

Electrical CAD Designer Create electrical circuit diagrams, wiring layouts, and panel designs.

Interior Designer (CAD-Based) Draft interior layouts, furniture placement, and spatial planning using AutoCAD.
