TRAINING AND INTERNSHIP PROGRAM

ABOUT US

Krutanic is at the forefront of transforming education through cutting-edge technology. Our comprehensive platform empowers learners with personalized learning experiences, collaborative tools, and real-time analytics. With adaptive assessments and interactive content creation, we enhance student engagement and achievement. Join us in revolutionizing education for the digital age, driving positive outcomes and preparing learners for success in tomorrow's world.

DATA SCIENCE

WHY DATA SCIENCE ?

- Data Science helps extract valuable insights from vast amounts of data, driving informed decision-making.
- It powers innovation across industries like healthcare, finance, retail, and technology.
- Growing demand for skilled data scientists makes it a highly lucrative career path.
- Enables businesses to predict trends, optimize operations, and improve customer experience.
- Combines statistics, programming, and domain knowledge for versatile problem-solving skills.
- Continuous advancements in AI and machine learning keep the field dynamic and future-ready.

TRAINING AND INTERNSHIP PROGRAM

1st MONTH

LIVE SESSIONS

Live sessions with industrial experts having experience above 10 years in the industry.

RECORDINGS

Recordings of all live sessions available with 1 year access in our LMS portal.

INDUSTRY RELATED

Industry related curriculum designed by the working professionals in the top hierarchy.

TRAINING AND INTERNSHIP PROGRAM

nd
2 MONTH

REAL TIME PROJECTS

Two real time industrial projects
One minor project and One major project.

ASSISTANCE

All mentors will be assigned as project leads and guide the intern till the completion of the project.

PERSONAL DEVELOPMENT

Additional projects for personal development can be required.

Modules Overview

Curriculum included

1

Introduction to Data Science

- Understanding data science lifecycle
- Roles and responsibilities of a data scientist
- Overview of data types and data sources
- Introduction to data-driven decision making

2

Python for Data Science

- Python basics: variables, data types, control structures
- Functions, loops, and error handling
- Libraries: NumPy, Pandas introduction
- Writing reusable code with functions and modules

3

Data Analysis with Pandas

- Data structures: Series and DataFrames
- Data cleaning and preprocessing
- Handling missing data and duplicates
- Data aggregation, grouping, and filtering

4

Data Visualization Techniques

- Visualization libraries: Matplotlib and Seaborn
- Plotting graphs: line, bar, scatter, histograms
- Customizing charts for better insights
- Interactive visualization basics with Plotly

Curriculum included

5

Statistics and Probability

- Descriptive statistics: mean, median, mode, variance
- Probability theory and distributions
- Hypothesis testing and confidence intervals
- Correlation and covariance analysis

6

Exploratory Data Analysis (EDA)

- Understanding data patterns and trends
- Outlier detection and handling
- Feature engineering and selection
- Data transformation and normalization

7

Machine Learning Basics

- Introduction to machine learning concepts
- Types of machine learning: supervised, unsupervised
- Overfitting, underfitting, and regularization
- Model evaluation metrics

8

Supervised Learning Algorithms

- Linear regression and logistic regression
- Decision trees and random forests
- Support vector machines (SVM)
- K-nearest neighbors (KNN)

Curriculum included

9

Unsupervised Learning Algorithms

- Clustering algorithms: K-means, hierarchical clustering
- Dimensionality reduction techniques: PCA
- Association rule learning
- Anomaly detection methods

10

Deep Learning Fundamentals

- Neural networks basics
- Activation functions and architectures
- Introduction to TensorFlow and Keras
- Training and tuning deep learning models

11

Big Data Tools and Technologies

- Introduction to Hadoop and Spark
- Working with large datasets
- Data storage and retrieval (HDFS, NoSQL)
- Basics of cloud platforms for data science

12

Capstone Project & Interview Preparation

- End-to-end data science project development
- Preparing reports and visualizations
- Resume building and portfolio tips
- Mock interviews and common questions

Students Reviews

Ramshad K

I have gained a really hands on Experience with on graphic design which was delivered by Akash sir was very supportive and endless worthy experience so far.

Rajendra Prasad

I'm Rajendran Prasad, to be honest I'm expressing my words, I have researched and found the correct certificate on LinkedIn and scan that and found it 100% genuine and verified successfully.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

I have seen some bad reviews and many good reviews so got confused but now I realised that Krutanic solutions is the best company ever for training and internship provider, I have learned a lot of new industrial things.

Sahad K

I got placement at Wipro through krutanic support team. I am really grateful that I got to learn from AI Mentor Ashish sir and support from my counsellor was really helpful. All thanks to Bhoomika mam my operations support member from krutanic.

Sunil Kumar

I'm Sunil Kumar, I have enrolled for Data Science program at Krutanic solutions and my experience is outstanding.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

Shubham Rai

Krutanic Group is truly doing a remarkable job by creating learning spaces that are not only informative but also inspiring. I've had the opportunity to attend two of their courses-Photography and Graphic Designing-and both were simply

Aman Nema

Krutanics Full Stack Web Development program was a fantastic learning experience. The course covered essential technologies like HTML, CSS, JavaScript, React, and backend development, providing strong foundation for building real-world web applications. The hands-on projects and expert guidance from mentors made learning interactive and practical. This program is perfect for beginners and aspiring developers looking to enhance their skills in web development. Highly recommended.

Students Reviews

Tejas Kolekar

I am thrilled to share my enriching experience from the Artificial Intelligence and Machine Learning Internship I recently completed with Krutanic, in collaboration with Wipro, a leading multinational corporation. This 3-month program was an incredible opportunity to deepen my knowledge, enhance my skills, and grow both personally and professionally in the dynamic field of AI and ML.

Pranali Shinde

Excited to share that I've just completed a Data Science course from Krutanic! It was an amazing journey diving into data visualization, exploratory data analysis, SQL, and machine learning. I've gained some valuable skills that I can't wait to apply in real-world projects. Big thanks to the instructors and everyone who made this experience so enriching! Looking forward to what's next!

Prabhleen Kaur

Just after few months of completion of my AI course I got my hands on attending Master class on Building AI agent without coding held in the month of March my experience was very good I get to know about new things from my mentor Mr.Aashish Mishra And at the end i recieved this © All thanks to Krutanic for giving me this opportunity.....

Career Opportunities in Data Science

Data Scientist Analyze complex data sets to derive actionable insights and build predictive models.

Data Engineer Build and maintain data pipelines, ensuring efficient data flow and storage.

Data Analyst Interpret data trends and generate reports to support business decision-making.

Business Intelligence Analyst Create dashboards and visualizations to help stakeholders understand key metrics.

Machine Learning Engineer Design, develop, and deploy machine learning models into production.

Big Data Engineer Work with big data technologies like Hadoop and Spark to process and analyze large-scale data.

CERTIFICATE OF TRAINING COMPLETION

THIS CERTIFICATE IS PROUDLY PRESENTED TO

Danish Raja Akhtar

Your dedication and achievement are truly inspiring, reflecting your readiness to excel in the dynamic field. This Certificate of Training Completion is awarded for successfully completing the

Full Stack Web Development on May 2025

Shrikant
SHRIKANT RATHOD
EXECUTIVE DIRECTOR

CERTIFICATE OF INTERNSHIP

May 5th, 2025 to July 5th, 2025

This Certificate is Proudly Presented To

Danish Raja Akhtar

This is to certify that the candidate has successfully completed the Internship. During the internship period, they demonstrated strong technical skills, professionalism, and a keen interest in the field. Their contributions were valuable to the team in the domain of **Full Stack Web Development**
