MACHINE LEARNING

ABOUT US

Krutanic is at the forefront of transforming education through cutting-edge technology. Our comprehensive platform empowers learners with personalized learning experiences, collaborative tools, and real-time analytics. With adaptive assessments and interactive content creation, we enhance student engagement and achievement. Join us in revolutionizing education for the digital age, driving positive outcomes and preparing learners for success in tomorrow's world.

TRAINING AND INTERNSHIP PROGRAM

Why Machine Learning ?

- Automates decision-making based on data patterns
- Solves complex problems beyond traditional programming
- High demand across industries like healthcare, finance, and e-commerce
- Foundation for AI advancements like chatbots and recommendation systems
- Continuously improves with more data and usage
- Offers lucrative and future-proof career opportunities

TRAINING AND INTERNSHIP PROGRAM

1st MONTH

LIVE SESSIONS

Live sessions with industrial experts having experience above 10 years in the industry.

RECORDINGS

Recordings of all live sessions available with 1 year access in our LMS portal.

INDUSTRY RELATED

Industry related curriculum designed by the working professionals in the top hierarchy.

TRAINING AND INTERNSHIP PROGRAM

nd
2 MONTH

REAL TIME PROJECTS

Two real time industrial projects
One minor project and One major project.

ASSISTANCE

All mentors will be assigned as project leads and guide the intern till the completion of the project.

PERSONAL DEVELOPMENT

Additional projects for personal development can be required.

Modules Overview

Curriculum included

1

Introduction to Machine Learning

- Understand ML concepts and types (supervised, unsupervised, reinforcement)
- Overview of ML applications in real-world scenarios
- Differences between ML, AI, and data science

2

Python for Machine Learning

- Python basics and libraries (NumPy, Pandas)
- Data manipulation and analysis
- Introduction to Jupyter Notebooks for ML workflows

3

Data Preprocessing & Feature Engineering

- Handling missing values and outliers
- Data normalization and scaling
- Feature selection and extraction techniques

4

Supervised Learning Algorithms

- Linear and logistic regression
- Decision trees and random forests
- Support Vector Machines (SVM)
- K-Nearest Neighbors (KNN)

Curriculum included

5

Unsupervised Learning Algorithms

- Clustering techniques: K-means, hierarchical clustering
- Association rules and market basket analysis
- Anomaly detection methods

6

Model Evaluation & Validation Techniques

- Train-test split and cross-validation
- Metrics: accuracy, precision, recall, F1score, ROC-AUC
- Confusion matrix interpretation

7

Ensemble Methods (Bagging & Boosting)

- Concept of ensemble learning
- Random Forest algorithm
- Gradient Boosting Machines (GBM), AdaBoost, XGBoost

8

Dimensionality Reduction Techniques

- Principal Component Analysis (PCA)
- t-SNE for visualization
- Feature reduction benefits and use cases

Curriculum included

9

Time Series Forecasting

- Basics of time series data
- Moving averages and smoothing techniques
- ARIMA and seasonal models

10

Introduction to Deep Learning

- Neural networks fundamentals
- Activation functions and architectures
- Frameworks: TensorFlow and Keras basics

11

Model Deployment & Productionization

- Saving and loading ML models
- Introduction to APIs for ML model serving
- Monitoring and maintaining models in production

12

Capstone Project & Interview Preparation

- Develop an end-to-end ML project
- Prepare portfolio and GitHub repositories
- Practice common ML interview questions and coding challenges

Tools Included

Python

Scikit-learn

Pandas & NumPy

Matplotlib

Seaborn

Students Reviews

Ramshad K

★★★★★

I have gained a really hands on Experience with on graphic design which was delivered by Akash sir was very supportive and endless worthy experience so far.

Rajendra Prasad

★★★★★

I'm Rajendran Prasad, to be honest I'm expressing my words, I have researched and found the correct certificate on LinkedIn and scan that and found it 100% genuine and verified successfully.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

I have seen some bad reviews and many good reviews so got confused but now I realised that Krutanic solutions is the best company ever for training and internship provider, I have learned a lot of new industrial things.

Sahad K

★★★★★

I got placement at Wipro through krutanic support team. I am really grateful that I got to learn from AI Mentor Ashish sir and support from my counsellor was really helpful. All thanks to Bhoomika mam my operations support member from krutanic.

Sunil Kumar

★★★★★

I'm Sunil Kumar, I have enrolled for Data Science program at Krutanic solutions and my experience is outstanding.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

Shubham Rai

★★★★★

Krutanic Group is truly doing a remarkable job by creating learning spaces that are not only informative but also inspiring. I've had the opportunity to attend two of their courses-Photography and Graphic Designing-and both were simply

Aman Nema

★★★★★

Krutanics Full Stack Web Development program was a fantastic learning experience. The course covered essential technologies like HTML, CSS, JavaScript, React, and backend development, providing strong foundation for building real-world web applications. The hands-on projects and expert guidance from mentors made learning interactive and practical. This program is perfect for beginners and aspiring developers looking to enhance their skills in web development. Highly recommended.

Students Reviews

Tejas Kolekar

I am thrilled to share my enriching experience from the Artificial Intelligence and Machine Learning Internship I recently completed with Krutanic, in collaboration with Wipro, a leading multinational corporation. This 3-month program was an incredible opportunity to deepen my knowledge, enhance my skills, and grow both personally and professionally in the dynamic field of AI and ML.

Pranali Shinde

Excited to share that I've just completed a Data Science course from Krutanic! It was an amazing journey diving into data visualization, exploratory data analysis, SQL, and machine learning. I've gained some valuable skills that I can't wait to apply in real-world projects. Big thanks to the instructors and everyone who made this experience so enriching! Looking forward to what's next!

Prabhleen Kaur

Just after few months of completion of my AI course I got my hands on attending Master class on Building AI agent without coding held in the month of March my experience was very good I get to know about new things from my mentor Mr.Aashish Mishra And at the end i recieved this © All thanks to Krutanic for giving me this opportunity.....

Career Opportunities in Data Analytics

Machine Learning Engineer Design, build, and deploy ML models into scalable applications.

Data Scientist Use machine learning to analyze data, generate insights, and create predictive models.

AI Engineer Develop intelligent systems using ML, deep learning, and NLP for real-world applications.

Research Scientist (AI/ML) Focus on developing new algorithms and advancing the field of machine learning.

Computer Vision Engineer Build models for image and video analysis in areas like facial recognition and autonomous driving.

Natural Language Processing (NLP) Engineer Specialize in language-based models for chatbots, translation, sentiment analysis, and more.

CERTIFICATE OF TRAINING COMPLETION

THIS CERTIFICATE IS PROUDLY PRESENTED TO

Danish Raja Akhtar

Your dedication and achievement are truly inspiring, reflecting your readiness to excel in the dynamic field. This Certificate of Training Completion is awarded for successfully completing the

Full Stack Web Development on May 2025

Shrikant
SHRIKANT RATHOD
EXECUTIVE DIRECTOR

CERTIFICATE OF INTERNSHIP

May 5th, 2025 to July 5th, 2025

This Certificate is Proudly Presented To

Danish Raja Akhtar

This is to certify that the candidate has successfully completed the Internship. During the internship period, they demonstrated strong technical skills, professionalism, and a keen interest in the field. Their contributions were valuable to the team in the domain of **Full Stack Web Development**
