FULL STACK DEVELOPMENT

ABOUT US

Krutanic is at the forefront of transforming education through cutting-edge technology. Our comprehensive platform empowers learners with personalized learning experiences, collaborative tools, and real-time analytics. With adaptive assessments and interactive content creation, we enhance student engagement and achievement. Join us in revolutionizing education for the digital age, driving positive outcomes and preparing learners for success in tomorrow's world.

TRAINING AND INTERNSHIP PROGRAM

Why Full Stack Development?

- Full stack developers are proficient in both frontend and backend, making them versatile assets to any tech team.
- They can independently build complete web applications from scratch, ensuring faster development cycles.
- High demand across startups, tech companies, and freelancing platforms due to their broad skill set.
- Mastery over the entire tech stack allows better project ownership and problem-solving capabilities.
- Opens doors to various roles like frontend, backend, DevOps, and architectural positions.
- Full stack development offers continuous learning with evolving tools like React, Node.js, Docker, and CI/CD.

TRAINING AND INTERNSHIP PROGRAM

1st MONTH

LIVE SESSIONS

Live sessions with industrial experts having experience above 10 years in the industry.

RECORDINGS

Recordings of all live sessions available with 1 year access in our LMS portal.

INDUSTRY RELATED

Industry related curriculum designed by the working professionals in the top hierarchy.

TRAINING AND INTERNSHIP PROGRAM

nd
2 MONTH

REAL TIME PROJECTS

Two real time industrial projects
One minor project and One major project.

ASSISTANCE

All mentors will be assigned as project leads and guide the intern till the completion of the project.

PERSONAL DEVELOPMENT

Additional projects for personal development can be required.

Modules Overview

**JavaScript
Programming**

**Version Control with Git
& GitHub**

**Database Integration
(MongoDB)**

Deployment & Hosting

**DevOps Basics for
Developers**

**Capstone Project &
Interview Preparation**

(only for placement assistance
program mock interview preparation)

**HTML & CSS
Fundamentals**

**Frontend Framework
– React.js**

**Backend Basics –
Node.js & Express.js**

**Authentication &
Authorization**

RESTful API Practices

**Advanced React & State
Management**

Curriculum included

1

HTML & CSS Fundamentals

- Structure web pages using semantic HTML tags
- Style with CSS: colors, fonts, spacing, Flexbox & Grid
- Make websites responsive using media queries
- Build basic page layouts and forms

2

JavaScript Programming

- Learn variables, data types, and operators
- Use functions, loops, and conditional statements
- Manipulate the DOM dynamically
- Handle user inputs and form validations

3

Frontend Framework React.js

- Build reusable components using JSX
- Manage state and props effectively
- Implement routing using React Router

4

Version Control with Git & GitHub

- Initialize Git repositories and commit changes
- Work with branches and resolve merge conflicts
- Push and pull code to/from GitHub
- Collaborate using pull requests and issues

Curriculum included

5

Backend Basics –Node.js & Express.js

- Set up Node.js and build a basic server
- Create RESTful APIs using Express routes
- Use middleware for logging and error handling
- Serve frontend with Express

6

Database Integration (MongoDB)

- Understand NoSQL database concepts
- Perform CRUD operations with MongoDB
- Use Mongoose for schema and model creation
- Connect Express backend to the database

7

Authentication & Authorization

- Implement login and registration features
- Secure routes using JWT or sessions
- Store passwords securely using hashing (bcrypt)
- Set up role-based access controls

8

Deployment & Hosting

- Deploy frontend on Vercel or Netlify
- Deploy backend on Heroku or Render
- Use environment variables and env files
- Monitor live app performance and logs

Curriculum included

9

RESTful API Practices

- Structure REST APIs using best practices
- Test endpoints using Postman
- Handle status codes, errors, and validation
- Follow modular coding structure for scalability

10

Advanced React & State Management

- Manage global state using Context API or Redux
- Handle complex UI state and async data flow
- Optimize performance with memoization and lazy loading
- Use Redux DevTools and middleware (like thunk)

11

DevOps Basics for Developers

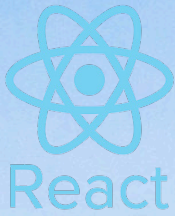

- Understand CI/CD workflows and pipelines
- Automate deployments using GitHub Actions
- Introduction to Docker for containerization
- Manage code in a team-friendly DevOps environment

12

Capstone Project & Interview Preparation

- Build and deploy a complete MERN (MongoDB, Express, React, Node) project
- Showcase work via GitHub and portfolio
- Practice coding questions and mock interviews

Tools Included

React.js

Node.js & Express.js

vs

MongoDB & Mongoose

Students Reviews

Ramshad K

★★★★★

I have gained a really hands on Experience with on graphic design which was delivered by Akash sir was very supportive and endless worthy experience so far.

Rajendra Prasad

★★★★★

I'm Rajendran Prasad, to be honest I'm expressing my words, I have researched and found the correct certificate on LinkedIn and scan that and found it 100% genuine and verified successfully.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

I have seen some bad reviews and many good reviews so got confused but now I realised that Krutanic solutions is the best company ever for training and internship provider, I have learned a lot of new industrial things.

Sahad K

★★★★★

I got placement at Wipro through krutanic support team. I am really grateful that I got to learn from AI Mentor Ashish sir and support from my counsellor was really helpful. All thanks to Bhoomika mam my operations support member from krutanic.

Sunil Kumar

★★★★★

I'm Sunil Kumar, I have enrolled for Data Science program at Krutanic solutions and my experience is outstanding.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

Shubham Rai

★★★★★

Krutanic Group is truly doing a remarkable job by creating learning spaces that are not only informative but also inspiring. I've had the opportunity to attend two of their courses-Photography and Graphic Designing-and both were simply

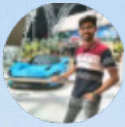

Aman Nema

★★★★★

Krutanics Full Stack Web Development program was a fantastic learning experience. The course covered essential technologies like HTML, CSS, JavaScript, React, and backend development, providing strong foundation for building real-world web applications. The hands-on projects and expert guidance from mentors made learning interactive and practical. This program is perfect for beginners and aspiring developers looking to enhance their skills in web development. Highly recommended.

Students Reviews

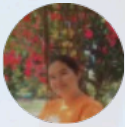

Tejas Kolekar

I am thrilled to share my enriching experience from the Artificial Intelligence and Machine Learning Internship I recently completed with Krutanic, in collaboration with Wipro, a leading multinational corporation. This 3-month program was an incredible opportunity to deepen my knowledge, enhance my skills, and grow both personally and professionally in the dynamic field of AI and ML.

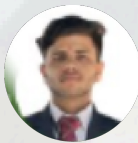

Pranali Shinde

Excited to share that I've just completed a Data Science course from Krutanic! It was an amazing journey diving into data visualization, exploratory data analysis, SQL, and machine learning. I've gained some valuable skills that I can't wait to apply in real-world projects. Big thanks to the instructors and everyone who made this experience so enriching! Looking forward to what's next!

Prabhleen Kaur

Just after few months of completion of my AI course I got my hands on attending Master class on Building AI agent without coding held in the month of March my experience was very good I get to know about new things from my mentor Mr.Aashish Mishra And at the end i recieved this ©
All thanks to Krutanic for giving me this opportunity.....

Career Opportunities in Full Stack Development

Full Stack Developer Build and maintain both frontend and backend of web applications, ensuring seamless integration.

Frontend Developer Focus on creating interactive, user-friendly interfaces using technologies like React or Angular.

Backend Developer Develop server-side logic, APIs, and database interactions using Node.js, Express, or similar frameworks.

DevOps Engineer Manage deployment, CI/CD pipelines, and infrastructure automation to streamline development workflows.

Mobile App Developer (React Native) Build cross-platform mobile applications using React Native, sharing skills from web development.

Technical Lead / Architect Oversee technical decisions, system architecture, and guide development teams through projects.
